

Walking the CSR walk in 2022

At PG Mutual, we are proud of our CSR achievements so far and want to continue to build these into our everyday working practices throughout 2022.

Our CSR Team is now well established and continues to bring forward ideas as to how CSR can be further developed within the company, for members, staff, the environment and community.

Our team is keen to talk the CSR talk!

Supporting our Community

- Following the success of our 2021 Annual Charity Awards, we're now compiling a new list of charities for next year's Annual Charity Award 2022. Look out for when you can vote!
- We're looking forward to all the activities our nominated local charity PHAB will be getting up to in 2022 and joining in where we can.
- The CSR team are continually looking at opportunities that fit into our CSR ethos and which can further support our community.

Supporting our Environment

- Offsetting our carbon footprint with our 'Plant a Tree' scheme is very important to us so we will keep supporting the Woodland Trust tree planting scheme throughout 2022.
- We want to recycle redundant office laptops and put them to good use by supporting a charity who allocates them to school children who need them most.
- Our priority and aim in 2022 is to reduce our 'paper' communications with our members and communicate more by using our new interactive Member Area, which will help us reduce our environmental impact.

Supporting our Members

- Helping our members is at the heart of everything we do, so our soon to be launched Member Wellbeing Counselling service is another benefit we can now offer our members.
- In 2022 we're aiming to find new and relevant Health & Wellbeing member benefits to complement our GP24 and Health Assessment services.
- Engaging our members via the CSR website to vote for the Annual Charity Awards 2022 and continuing our 'Plant a Tree' scheme to help support our environment.

Supporting our Staff

- As we will be adopting a 'hybrid' working policy in 2022, we will be supporting our team's wellbeing every step of the way.
- Health and safety for our home-working team is very important to us, so we will continue to make regular assessments on the suitability of equipment and their working environment.
- Our Employer-Supported Volunteering (ESV) scheme launched in 2021 will continue and we will encourage our team to participate and share their volunteering experiences throughout 2022!
